

Securitron® Power Supplies

AQD Series Switching Power Supply

High Efficiency
Dual Voltage
12 or 24 VDC

Specifications

- AQD 4 & 6 — Dual Voltage 12 or 24 VDC field selectable
- Typical output 12.5 or 25.0 VDC
- 120/240 VAC input
- Dedicated battery charging circuit for safe charging of optional 12 or 24 V sealed lead acid batteries
- Overall Enclosure Dimensions 14" x 12" x 4.5"
- White finish

Supervision

- AC Failure Supervision
- Low Battery Supervision

Available Accessory Boards

- PDB-1R — Fire Trigger
- PDB-4C or F — 4 Outputs
- PDB-8C or F — 8 Outputs
- PDB-8C1R or 8F1R — 8 Outputs with Fire Trigger
- PDB-8C8R or 8F8R — 8 Access Controlled Outputs with Fire Trigger

UL Listings

- UL 294
- UL 603
- ULC-S318
- ULC-S533
- All combinations of AQD Power Supplies and Accessory Boards are UL Listed when used in a UL Listed enclosure

AQL Series Intelligent Power Supply

Smart Battery Charger
Network Ready
Multi-Voltage Ready

Specifications

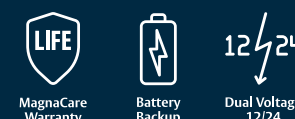

- AQL 4 & 6 — Dual Voltage 12 or 24 VDC field selectable
- AQL 102 & 104 — Single Voltage 12 or 24 VDC set at factory
- Typical Output 12.5 or 25.0 VDC
- 120/230 VAC input
- Smart Battery Charging Circuit — programmable current for optimum charging
- Built in Fire Alarm Interface with latching capability
- Overall Enclosure Dimensions 14" x 12" x 4.5"
- Black finish

Supervision

- AC Failure Supervision
- Low Battery Supervision

Available Accessory Boards

- D8/D8P — 8 Continuous outputs
- R8 — 8 Access control outputs
- B100 — Multi-voltage output (5 to 18 VDC)
- NL4 — Netlink™ monitoring provides real-time health status monitoring and reporting to any AQL model power supply

Power Transfers

CEPT

Heavy-duty, tamper-resistant and compact, secure power transfer. Available in standard stainless, BSP, and 613E finishes.

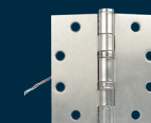

EPT

Concealed, tamper-resistant, flexible power and data transfer.

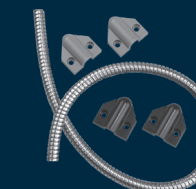

EH

Double duty hinge for streamlined power transfer.

TSB-C

Tamper-resistant door cord for power and data transfer.

Accessories (AQL only)

Netlink Power Monitoring Module

- Monitor health and status of the Securitron AQL power supply and battery
- One-click or scheduled remote battery health status
- System monitoring email and text message notifications for a wide variety of power system statuses and variables
- Encrypted password, user, and certificate logging

B100 Secondary Voltage Module

- Jumper selectable output voltage — 12 VDC fixed and 5-18 VDC adjustable
- LED voltage indicators [Green: 12V | Blue: 24V]
- Overload, short circuit and over temperature protection
- Faults report to Securitron AQL power supply on abnormal operation, voltage loss, and overcurrent
